

Small Triangle Treat Box (4" long x 2" wide)

- Designer Series Paper or cardstock cut 6" by 6"
- Score along one side at 1" and 5."
- Turn cardstock and score at 1 7/8", 3 3/4" and 5 5/8"
- Fold along all score lines and burnish with bone folder.
- Cut tab sections apart along the score lines up to the perpendicular score line; turn paper and repeat on other side.
- Cut away the two short 3/8" wide section on each side to leave a tab for your adhesive.
- Find the center of each tab (7/8") and cut from the outside center point to the perpendicular edge of the tab on each side to create a triangular shape.
- Place Tear & Tape along the outside of the 1/4" tab running the length of the box.
- Peel backing of Tear and Tape and attach to opposite side to form the triangle, being careful to match up edges.
- Fold the end pieces up and place Tear and Tape on the outside triangular edge. Remove Tear and Tape paper and carefully fold this triangle up to seal the end of the tube. (NOTE: Be sure to fill the tube with goodies before sealing both ends! 😊)
- Embellish as desired.
